PAN Software is pleased to announce the official launch of RiskWare, the next generation in Enterprise Risk Management (ERM) software, at the 2009 RMIA Conference. RiskWare supports AS/NZS4360 and the new international risk management standard ISO:31000 to break down the silos in your organisation by integrating all areas of risk. Evaluating risk assessments in-conjunction with incidents to produce an accurate risk profile, RiskWare provides a true picture of enterprise risk and performance, in a user-friendly single consolidated environment. Utilised by various industry sectors, such as education: *Department of Education and Early Childhood Development*, corporate: *Crown Limited* and utilities: *International Power*, RiskWare is well placed to reposition your company on the road to resilience.
