

Enterprise Risk Management

Discover the Latest Concepts in Integrating
Risk Management into your Organisation's
Business as Usual

Course Information Brochure

About the Course

All organisations, no matter whether private, government or not-for-profit have one thing in common – they all work in an environment characterised by risk. Successful organisations not only understand these risks but use an understanding of these risks to make risk informed decisions.

The objective of this workshop is to provide the knowledge and skills to plan and implement an enterprise-wide risk management framework. In addition, this workshop will provide an understanding of the risk management process and its application.

The **Enterprise Risk Management** course has been aligned directly with AS/NZS ISO 31000:2009 – Risk Management Principles and Guidelines. In fact, the course builds on the principles contained in the Standard in relation to the elements of an effective risk management framework.

Provided you can demonstrate 5 years' experience or more, upon completion of the course, participants are eligible to sit the Certified Practising Risk Manager examination.

The course also provides other education pathways through Paladin Risk Management Services' accredited courses.

Course Delivery

The course contains two (2) discreet modules conducted over two days face to face.

SESSION 1 - ENTERPRISE RISK MANAGEMENT

This session covers development of a risk management Framework within an organisation (embedding risk management within organisational culture) to maximise the strategic outcomes for the organisation from enterprise risk management – a whole of organisation approach to risk management. This session includes topics such as:

- Elements of an effective risk management framework
- Gaining senior management mandate, commitment and leadership
- Developing the organisation's risk appetite and tolerance
- Developing the risk criteria for the organisation
- Integration of risk management into the strategic planning process
- Integration of risk management into other organisational programs such as compliance, internal audit and performance management
- Measuring risk management performance

Participants will be guided through the elements of an effective enterprise wide risk management framework and will be provided with the insights necessary to successfully integrate the framework into their organisation.

SESSION 2 - MANAGING RISK - A PRACTICAL APPROACH

This unit covers maximising results and minimising consequences for an organisation by managing risk.

Participants will be guided through the ISO 31000 Risk Management Process utilising a range of tools and techniques that provide a practical methodology for adoption into their organisations.

Some of the techniques participants will learn include:

- How to identify risks using a Risk Breakdown Structure
- The importance of control identification and control effectiveness in the risk management process
- How to analyse risk so as to ensure the risk level is appropriate
- Risk treatment options available and how and when they should be used
- How to develop a cost benefit analysis for funding risk management activities

At the end of this session, participants will have the skills and confidence to enable them to conduct effective risk workshops within their organisation.

About the Facilitator

Rod Farrar is an accomplished risk consultant with extensive experience in the delivery of professional consultancy services to Government, corporate and not-for-profit sectors.

Rod's knowledge of the Risk Management domain was initially informed through his 20 years' service as an Army Officer in varying Project, Security and Operational roles. Subsequent to that, Rod has spent ten years as a professional risk manager and is a Certified Practicing Risk Manager.

Rod's Risk Management expertise is highly sought after as is the insight he provides in his risk management training and workshop facilitation.

Rod is the Principal of Paladin Risk Management Services, a Canberra-based specialist risk management consultancy that undertakes work as diverse as:

- **Assessment of organisational risk maturity (risk audits);**
- **Development and implementation of risk management frameworks;**
- **Development and conduct of risk management training; and**
- **Facilitation of risk management workshops.**

Rod has lectured at the University of Canberra, has been on the assessment panel for Certified Practicing Risk Managers as well as speaking at a range of conferences and forums. In addition, Rod has presented at a number of conferences and conducted training throughout Australia as well as overseas. He is the author of two eBooks – *Demystifying Risk Management* and *Risk is not a Four Letter Word*.

Rod is passionate about risk management and the benefits it can bring to an organisation and he brings this passion to his training.
